

## Nutramigen LIPIL Powdered Formula Authorization

Until very recently, Nutramigen LIPIL Powdered was called NUTRAMIGEN/NUTRAM LIPIL powdered in the system. So if you have a food package with Nutramigen LIPIL Powdered and a food authorization for NUTRAMIGEN/NUTRAM LIPIL powdered, you will get the following error message when you attempt to print checks.

Many of our major chain stores have already converted over to the Nutramigen Enflora LGG. Please determine where a participant will be shopping and check which version of Nutramigen the store is stocking prior to issuing any Nutramigen LIPIL/Nutramigen Enflora LGG checks.

To fix the food authorization problem mentioned above:

1. Determine if you should be issuing Nutramigen LIPIL powered or Nutramigen Enflora LGG.
2. Change the food package in the Risk Assessment screen if necessary.
3. Update the Formula Authorization to be either “NUTRAMIGEN LIPIL powdered” or “NUTRAMIGEN W/ENFLORALGG powdered”.
4. Print checks.
